Professional Summary

Computer Science graduate with hands-on experience in Python full-stack development, relational databases, and data analytics. Proficient in Python, Django, Flask, REST API design, MySQL, PostgreSQL, and SQLite, with a demonstrated ability to build end-to-end web applications featuring CRUD operations, authentication, and ORM-based database integration. Completed an NSDC-affiliated Logistics Data Analyst internship, applying SQL and Excel to real-world supply chain data to support data-driven decisions. Seeking an entry-level role as a Python Developer, Data Analyst, SQL Developer, or Software Developer.

Education

Satavahana University **2023 – 2026**
Bachelor of Science in Computer Science *Karimnagar, Telangana*

Technical Skills

Programming Languages: Python (Core & OOP), SQL, Java (Basic), JavaScript (Basic)
Frameworks & Libraries: Django, Flask, FastAPI (Basic), REST API Design, React.js (Basic), Bootstrap
Databases: MySQL, PostgreSQL, SQLite
Data Analytics Tools: Microsoft Excel (Pivot Tables, VLOOKUP, Dashboards), SQL, Power BI, Tableau, Pandas (Basic), NumPy (Basic)
Tools & Platforms: Git, GitHub, Windows Server 2016/2019, Active Directory, TCP/IP, DNS, DHCP, BIOS/UEFI
Core Concepts: Object-Oriented Programming, Data Structures (Basic), CRUD Operations, Authentication & Authorization, SDLC Basics, Agile Fundamentals

Internship Experience

Logistics Data Analyst Intern **2026**
Yuva Intern *Remote*

- Analyzed logistics and supply chain datasets using Excel and SQL to uncover trends in shipment tracking, inventory levels, and delivery performance, supporting data-driven operational decisions.
- Built pivot tables, interactive dashboards, and summary reports that translated raw operational data into actionable insights for stakeholders.
- Applied data cleaning and validation techniques to ensure accuracy across large, multi-source datasets, then documented findings for stakeholders.
- Earned an NSDC-affiliated Certificate of Experience for consistent dedication, professionalism, and strong task delivery.

Projects

Wireless Network Security Awareness Web App | *Python, Flask, SQLite, HTML5, CSS3, Bootstrap*

- Designed and developed a Flask-based web application presenting research on WPA2/WPA3 encryption protocols and wireless security best practices for a general audience.
- Built backend routes, business logic, and RESTful endpoints in Flask; modeled and persisted structured data using SQLite.
- Styled a fully responsive, mobile-friendly frontend with Bootstrap to improve accessibility and user experience across devices.

AI-Assisted Personal Portfolio Website | *HTML5, CSS3, JavaScript, React/Bootstrap, Claude AI, ChatGPT*

- Designed and built a personal portfolio website to showcase projects, technical skills, and resume in a single responsive site.
- Leveraged AI tools (Claude, ChatGPT) to accelerate UI design, content drafting, and iteration, cutting development time significantly.
- Implemented About Me, Projects, Skills, and Contact sections with a downloadable resume link; deployed and hosted on GitHub Pages for public access.

Certifications

Artificial Intelligence Fundamentals — IBM Certification
Logistics Data Analyst Internship — NSDC-Affiliated Certificate of Experience, Yuva Intern (Henry Harvin Education), 2026

Soft Skills

Communication, Teamwork & Collaboration | Analytical Problem Solving & Attention to Detail | Adaptability & Quick Learning
